Pair

VESSEL

From left: VA304PSM, VA306PYL, VA305PBL, VA307PPR, VA303PBL, VA300PYL, VA302PSM, VA301PPR

SkLO Pair vessels are composed of two cylindrical vessels fused together at their bases, making double-ended vessels. Each of the open ends are ground and polished, so that the vessels can be oriented with either end "up" as the open vessel. Each Pair vessel is composed of two colors, one opaque and one transparent.

Available in eight unique sizes/proportions/color combinations only as shown

All glass dimensions are approximate - handblown glass dimensions vary by nature and intent
