## creseent vessel

Minimal double-sided vessels composed of two different shapes in different transparent colors. Each half of each shape is a different diameter and proportion, with hemispherical ends joined dynamically together just where the two curves meet. The open ends are cut and polished so that the vessels can be oriented with either end up. Six unique shapes, in a bright palette of carefully combined colors. Handblown in the Czech Republic.

Six unique shapes, colors available only as shown

All glass dimensions are approximate – handblown glass dimensions vary by nature and intent  
Handblown in the Czech Republic

<b>VA741PLC</b>	<b>creseent vessel</b> shape 1 plum/copper ruby	11”H x 6”Dia (29x15cm)
