BOWL

From left: Small/Clear, Large/Steel Blue, Medium/Plum on Brushed Brass rings

A broad, shallow bowl of handblown glass that sits freely atop a metal ring base. The handblown glass bowl is blown without the use of a mould – it is shaped by hand while hot on the glass blower's pipe, and it is extra thick and massive as a result. This allows for the lip of the glass bowl to be cut and highly polished. The sturdy ring is custom made from solid brass to fit the bowl, elevating it.

All glass dimensions are approximate - handblown glass dimensions vary by nature and intent
