

SkLO

Canopy Variants

Many SkLO pendant lights which are suspended on rigid brass tube stems are available with multiple canopy options. The standard canopies offered with most of our stem-hung pendants do not accommodate sloped ceilings. On this page, you will find options for accommodating sloped ceilings, and also for locating pendants independent of recessed electrical box locations.

All canopy options will be finished to match the metal finish of the fixture for which they are specified.

The canopy options shown on this page are available for an additional cost - Please specify the code for the canopy variant when ordering

Not all canopy options are compatible with all SkLO pendants. Check the list of compatible fixtures for each option, and make sure to specify the canopy option code when ordering.

HS101 30-degree Swivel Canopy

Combined with standard canopies on some fixtures, this swivel will allow accommodation of up to a 30 degree ceiling slope only. Solid brass construction.

This swivel will not accommodate slopes more than 30 degrees - SkLO is not responsible for consequences of inappropriate use on steeper slopes.

Compatible fixtures:

Dew Pendant	LT410
Drape Arm 3 Pendant	LT360
Float 1.0 Pendants	LT251/252
Hold Pin Pendant	LT365
Reflect Pendants	LT370/371/372
Stem 1X Pendants	LT310/312
Stem 2X Pendants	LT311/314
Stem 3X Pendants	LT383/384
Wrap Pin Pendant	LT126
Veer Pendants	LT385/386

HS102 Hang Straight Canopy

The hang straight is a hook-and-loop assembly which also includes its own dedicated canopy (1"/25mm deep and 5"/127mm in diameter). This hang-straight will accommodate all ceiling slopes for compatible fixtures. The electrical wiring will be exposed where it passes from the top of the stem to the opening into the canopy - this cord is black. Solid brass construction.

Compatible fixtures:

Balance Pendant	LT500
Dew Pendant	LT410
Float 1.0 Pendants	LT251/252
Float 2.0 Pendants	LT216/220
Hold Pin Pendant	LT365
Reflect Pendants	LT370/371/372
Stem 1X Pendants	LT310/312
Stem 2X Pendant	LT311/314
Stem 3X Pendants	LT383/384
Wrap Pin Pendant	LT126
Veer Pendants	LT385/386

HS103 Swagged Hang-Straight Canopy

The swagged hang straight allows compatible fixtures to be suspended from a location separate from an electrical box. A simple 1/8"/3mm thick 5"/127mm diameter brass disc canopy with two exposed fasteners attaches to the electrical box, and an exposed fabric-wrapped electrical cord swags to the actual fixture, which will have at the top of its rigid brass tube stem a two-part hook-and-loop brass hang-straight which accommodates sloped ceilings and attaches directly to the finish ceiling. Solid brass construction.

Compatible fixtures:

Balance Pendant	LT500
Dew Pendant	LT410
Float 1.0 Pendants	LT251/252
Float 2.0 Pendants	LT216/220
Hold Pin Pendant	LT365
Reflect Pendants	LT370/371/372
Stem 1X Pendants	LT310/312
Stem 2X Pendants	LT311/314
Stem 3X Pendants	LT383/384
Wrap Pin Pendant	LT126
Veer Pendants	LT385/386

Cord length is field adjustable

Standard cord length 72"/1080mm
Longer cord lengths available at additional cost
