

from left: small pewter, medium gold, medium silver and large blue

## echo vessel

The SkLO *echo* vessels are rounded asymmetrical shapes of handblown Czech glass in transparent colors with dimpled voids at their tops. The vessels are mirror-finished from the inside, giving them their distinct metallic reflective surface. Intentionally off-center, each *echo* evokes its handblown origins.

Three sizes

Available in four colors

All glass dimensions are approximate – handblown glass dimensions vary by nature and intent  
Handblown in the Czech Republic

available in: blue-BLU gold-GLD pewter-PEW silver-SLV
