pair vessel

SkLO *pair* vessels are composed of two cylindrical vessels fused together at their bases, making double-ended vessels. Each of the open ends are ground and polished, so that the vessels can be oriented with either end "up" as the open vessel. Each *pair* vessel is composed of two colors, one opaque and one transparent.

Available in eight unique sizes/proportions and four color combinations
All glass dimensions are approximate – handblown glass dimensions vary by nature and intent
Handblown in the Czech Republic

VA300 PYL	pair vessel yellow palette	4.5"H x 6.5"Dia (11x17cm)
