

## truss vessel

SkLO *truss* vessels are rows of seven small spherical glass vessels fused together while hot. Each vessel has a small pin-hole opening that is polished smooth. The alignment of the holes twists slightly along the length of the piece. Intentionally irregular, no two exactly alike.

Available in two colors

All glass dimensions are approximate – handblown glass dimensions vary by nature and intent  
Handblown in the Czech Republic

<b>SC365ALB</b>	<b>truss vessel</b> alabaster	2.5"W x 15"L (6x38cm)
