

SkLO

Twice

LIGHT

The Twice Light consists of two lit spheres of handblown Czech glass connected by a cylindrical brass armature. Two different diameter spheres make for an asymmetrical light. A brass ring is included with the light and used under the larger sphere to stabilize the light. The glass diffusers feature the signature SkLO double-dipped, fire-polished mouths which show where the glass is broken from the blower's pipe, making each unique.

UL listed suitable for dry locations only (US & Canada)

Sockets 120V G9 7W Max

LED bulbs included

72"/1830mm black fabric-wrapped cord with in-line switch

All glass dimensions are approximate – handblown glass dimensions vary by nature and intent
