

SkLO

Root

OBJECT

Shown on Dark Oxidized steel table stand

SkLO Root is a length of solid clear Czech glass, marked by random locations where glass is organically added, then cut and ground nearly completely off, leaving highly polished and flat cylindrical shapes. Evocative of the shapes found in nature, yet also a compelling expression of glass and the skill behind its handmade origins. Presented on a steel table stand.

All glass dimensions are approximate – handblown glass dimensions vary by nature and intent
