

drape arm 1 sconce

The *drape arm 1* sconce consists of a single lit sphere of handblown Czech glass suspended from a moveable arm. The sphere is either 4 1/2" (11cm) or 7" (18cm) diameter and is suspended from the arm on a fabric-wrapped electrical cord. The exposed cord passes through the end of the arm and returns to the canopy at the wall. Solid brass construction throughout, the arm is hinged for a full 180-degree horizontal swing and is available in two lengths. The spherical glass diffusers feature the signature SKLO double-dipped, fire-polished mouths which show where the glass is broken from the blower's pipe, making each unique.
