Rope

VESSEL

From left: Pine Tree Green, Clear and Smokey Brown

Oversized cylindrical vessels of handblown Czech glass, each with a decorative thick rope loop that passes through holes in the glass. The rope loops are permanently joined together with a length of brass tube. Functional, yet the simple detail of the rope elevates this into an object all its own. Note that the rope “handle” is purely decorative, and the vessel is not meant to be lifted by the rope.

All glass dimensions are approximate – handblown glass dimensions vary by nature and intent

Made in the Czech Republic
