

SkLO

Hook & Loop

MULTI-PENDANT CANOPY

The Hook & Loop Multi-Pendant Canopy system is designed to enable multiple stem-suspended SkLO pendants to be swagged from a single round canopy to locations independent of the canopy. Each individual pendant is swagged with a fabric-wrapped electrical cord from a hole in the canopy to a hook & loop assembly, which is fastened directly to the ceiling.

Requires a single recessed electrical box for installation

See list of compatible pendant designs on the right

The number of individual hook & loop assemblies provided corresponds to the number of holes in the canopy

Individual pendants must be ordered separately – specify the overall drop length of each individual pendant – rigid brass tube stems are not field adjustable – see individual pendant specifications for additional information

Swagged cord length of each individual pendant is field adjustable. The standard swagged cord length is 120" (3050mm) measured from the top of the stem. Longer swagged cord lengths are available at an additional cost.

Made in the Czech Republic
