## Multi-pendant Canopy Hook & Clasp System

Multi-pendant Canopy Hook & Clasp System is designed to accommodate multiple cord-suspended pendants that are connected to one electrical box or wiring location. Each canopy comes with an equal number of holes and hook & clasp assemblies.

The fixture hangs from a hook-and-clasp assembly that fastens directly to the ceiling.

An exposed fabric-wrapped electrical cord swags from the canopy to the fixture. Cord length is field adjustable. The standard cord length supplied with each pendant is 120"/3050mm. Longer cord lengths are available at an additional cost.

### Compatible Products:

| Product Name  | Product SKU   |
|---------------|---------------|
| Drape Pendant | LT160/161/162 |
| Fold Pendant  | LT110/111/112 |
