

SkLO

Angle 2.0

PENDANT

The dynamic asymmetrical tubular brass structure of the Angle 2.0 Pendant combines with minimal handblown glass diffusers to create a striking yet airy composition. Perfect for large spaces. Subtle variations in the weight of each handblown glass diffuser mean that the aspect of the pendant will have an inherent range – see drawings and specifications for more information on specifying overall drop length for this design. This is part of the design intent, adding depth and originality to every fixture.

UL listing suitable for dry and damp locations (US & Canada) – certification pending

Sockets 120V G9 7W Max (LED bulbs included)

Accommodates sloped ceilings up to 30 degrees. Other canopy options for steeper slopes are available at an additional cost. Visit the Accessories page on our website to see available canopy options and review compatibility.

Specify overall drop length – Rigid brass tube stems are not field adjustable – Note that due to intentional variations in the weight of the handblown glass diffusers, this light fixture has an inherent height dimension variation of 8"/200mm – SkLO cannot guarantee overall drop length specifications beyond an approximate variation of $\pm 4"/100\text{mm}$.

Minimum overall drop length: 71"/1805mm

Lengths over 98"/2490mm available at additional cost

Fixture weight (approximate): 25lbs/11kg

Handblown glass production results in variation in dimensions, shape, color saturation, color tint, and imperfections such as small bubbles. This is part of SkLO design intent

Made in the Czech Republic
