Dew

SCONCE

The Dew Sconce is an intense expression of the molten origins of handblown glass. For a diffuser, the Dew Sconce features a solid sculpted glass shape composed of layers of glass applied while hot, giving it a dripping appearance. The glass is permanently affixed to the solid brass armature, hidden behind a minimal brass cylinder, which lifts to give access to the bulb. The fixture uplights slightly through the open top of the cylinder. The glass diffuser is available in either clear glass, or frosted clear glass, for two very different effects.

UL listed suitable for dry and damp locations (US & Canada)

Socket 120V G9 7W Max (LED bulb included)

Requires recessed electrical box for installation

Fixture weight (approximate): 7lbs/3kg

All glass dimensions are approximate – handblown glass dimensions vary by nature and intent

Made in the Czech Republic

LT412 [---][--]
