Dew

SCONCE

The Dew Sconce is an intense expression of the molten origins of handblown glass. For a diffuser, the Dew Sconce features a solid sculpted glass shape composed of layers of glass applied while hot, giving it a dripping appearance. The glass is permanently affixed to the solid brass armature, hidden behind a minimal brass cylinder, which lifts to give access to the bulb. The fixture uplights slightly through the open top of the cylinder. The glass diffuser is available in either clear glass, or frosted clear glass, for two very different effects.

UL listed suitable for dry and damp locations (US & Canada)
Socket 120V G9 7W Max (LED bulb included)
Requires recessed electrical box for installation
Fixture weight (approximate): 7lbs/3kg
Handblown glass production results in variation in dimensions, shape, color saturation, color tint, and imperfections such as small bubbles. This is part of SkLO design intent
Made in the Czech Republic
