Peak

PENDANT

The Peak Pendant is a lit shape of handblown glass supported beneath a small conical form. The cone can be installed in either the pointing-up or pointing-down position. The ceiling canopy is an identical conical shape, mirroring the form of the pendant itself. The glass diffusers are available in two shapes and both "dipped" glass, featuring the SkLO double-dipped flame-polished mouth, and "textured" glass, featuring a soft, frosted finish and subtle sculpted vertical ridges. The Peak Pendant offers numerous possible configurations and personalities. It is not just one single pendant design, but many.
