

SkLO

Dome

LIGHT

CE ENEC CB IP20

A large dome of handblown Czech glass with a frosted finish rests atop a custom base made of vertical solid brass plates. A brass ring fits onto the base as a seat for the glass dome. Imposing in size, it can work on large furniture, or the floor, depending on the decor. While large, the softness of the frosted glass and minimal presence of the base make it approachable and compelling.

Socket 220-240V E27 60W Max (LED bulb included)

1830mm black fabric-wrapped cord with in-line switch

Handblown glass production results in variation in dimensions, shape, color saturation, color tint, and imperfections such as small bubbles. This is part of SkLO design intent

Made in the Czech Republic
