

SkLO

Twin 1.0

SCONCE

CE ENEC CB IP20

The Twin 1.0 Sconce features a two-tone diffuser of handblown Czech glass made up of two flattened spherical shapes in two colors which are melded together while hot on the glass blowing pipe. The glass is held to a solid brass plate canopy by a brass band that sits between the two spheres. Each sphere is lit from within by its bulb, one in each sphere. For wall use only – for ceiling applications see the Twin 2.0 Sconce/Ceiling Light. It is strongly recommended that the Twin 1.0 Sconce only be installed in the vertical orientation as shown.

Sockets 220-240V G9 7W Max (LED bulbs included)

Requires recessed electrical box or other provision to safely make the electrical connections, see installation instructions for more details

Fixture weight (approximate): 2.75kg

Handblown glass production results in variation in dimensions, shape, color saturation, color tint, and imperfections such as small bubbles. This is part of SkLO design intent

Made in the Czech Republic

LTM06 [-----][--] Twin 1.0 Sconce
