Bloom

BOWL

From left: Small Light Beige/Olivin, Large Celadon/Pine Tree Green, Small Oyster/Plum, Large Light Beige/Olivin, Small Celadon/Pine Tree Green

Round bowls of substantial handblown glass are rendered in opaque glass colors and edges that are cut and highly polished to express the thickness of the glass. To the outside of the clean geometry of the bowls we fuse irregular chaotic bubbles of glass in complementary transparent glass colors. The bowls rest off-center on the outer glass bubbles. The layering of colors and transparencies, combined with the careful composition of different glassblowing techniques, results in compelling, vibrant decorative objects.

Two sizes, three glass colorways.

Weight (approximate): 12lbs/5.5kg (BL380), 21lbs/9.5kg (BL381)

Handblown glass production results in variation in dimensions, shape, color saturation, and imperfections such as small bubbles. This is part of SkLO design intent

Made in the Czech Republic

BL380 [---]
BL381 [---]

Glass colors

Small
Large

● Light Beige/Olivin [LBEOLV]
● Celadon/Pine Tree Green [CELPTG]
● Oyster/Plum [OYSPLM]
