Object

Object is the name of our collection of accessories produced exclusively in hand-blown glass. While accurate, the simple word "accessories" does not fully describe the breadth of ideas that live here.

Object is a place of free experimentation for us as designers, where ideas run unfettered, practical constraints bend to the imagination, and we explore the possibilities of the craft of glassblowing.

Here you will find many different categories and types of work, from sculpture to drinkware, functional vases to wallpiece installations.

As designers, our goal is to express that these things are made by hand. Our interest in Craft is not the pursuit of perfection of technique, but rather the celebration of the unique, human act of making, itself.

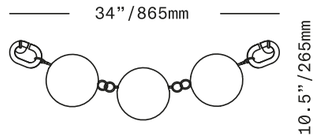

We strive for subtlety, restraint, and beauty.

Blend
VESSEL

Left to right: Medium Oyster, Large New Blue, Small Pastel Green

Blend Vessels are classic curving forms, the glass narrowing toward the top in gently curving lines. The vessels are then capped with a brushed brass element that defines the opening at the top. The colorway is a muted selection of gray/blue/green, with the opaque colors fading in intensity from the top to the bottom. The brass tops are permanently attached. Sophisticated and stately, they work alone or in groups of two and three.

Bottom, from left: 6" Light Green, 8" Smoke, 12" Lime, 16" Pine Tree Green, 20" Steel Blue

SkLO Float Vessels are organic spheres of handblown Czech glass with broken flame polished mouths. They are entirely free-blown, produced without the use of moulds to shape them. The tops are given a slight ripple where they are dipped twice into the molten glass, and the mouths broken from the blowpipe and fire polished while hot. These subtle details elevate the simple sphere to a unique thing of beauty that speaks entirely of the craft of glass blowing. The Float Vessels come in 5 sizes, and each size is available in two different colors, making up two different color palettes. The color palettes reflect the idea that Float Vessels work best in groups, with the color palettes carefully curated to allow for many possibilities.

Ring
BOWL

From left: Small/Clear, Large/Steel Blue, Medium/Plum on Brushed Brass rings

A broad, shallow bowl of handblown Czech glass that sits freely atop a metal ring base. The handblown glass bowl is blown without the use of a mould – it is shaped by hand while hot on the glass blower's pipe, and it is extra thick and massive as a result. This allows for the lip of the glass bowl to be cut and highly polished. The sturdy ring is custom made to fit the bowl, elevating it.

Seam

VESSEL

Back row from left: Large in Smoke Frosted and Whiskey Frosted
Front row from left: Small in Violet Frosted, Steel Blue Frosted and Copper Ruby Frosted

A special glassblowing technique developed at SkLO gives these vessels their "seam" while they are hot on the glassblower's pipe. This creates the unique asymmetrical, off-center double mouths that are the signature detail of these beautiful vessels. The seam is produced in a palette of rich transparent colors. Then the glass is frosted, resulting in a vibrant, irresistible depth. The open mouths are ground and polished.

The View Bowl is created by combining two separate shapes while hot on the glass blower's pipe. The form of the bowl is pressed against a cylindrical base, the rounded surface of the bowl pushing into the space within the cylinder. The tops and bottoms are then cut and polished. Each View Bowl is made up of two transparent colors, one for the bowl and one for the base, creating a complex color relationship.
